The starting instrument

Twelve-sided field chamber — live & sleep. Kitchen lives in the wing.

Copper matrix in circle walls only · Pool under the wing · Garage to the road

The house as instrument

Copper · Merkaba axis · crystals · twelve-gon — meters before myth

Solar: garage + center rectangle only — never on circle roofs

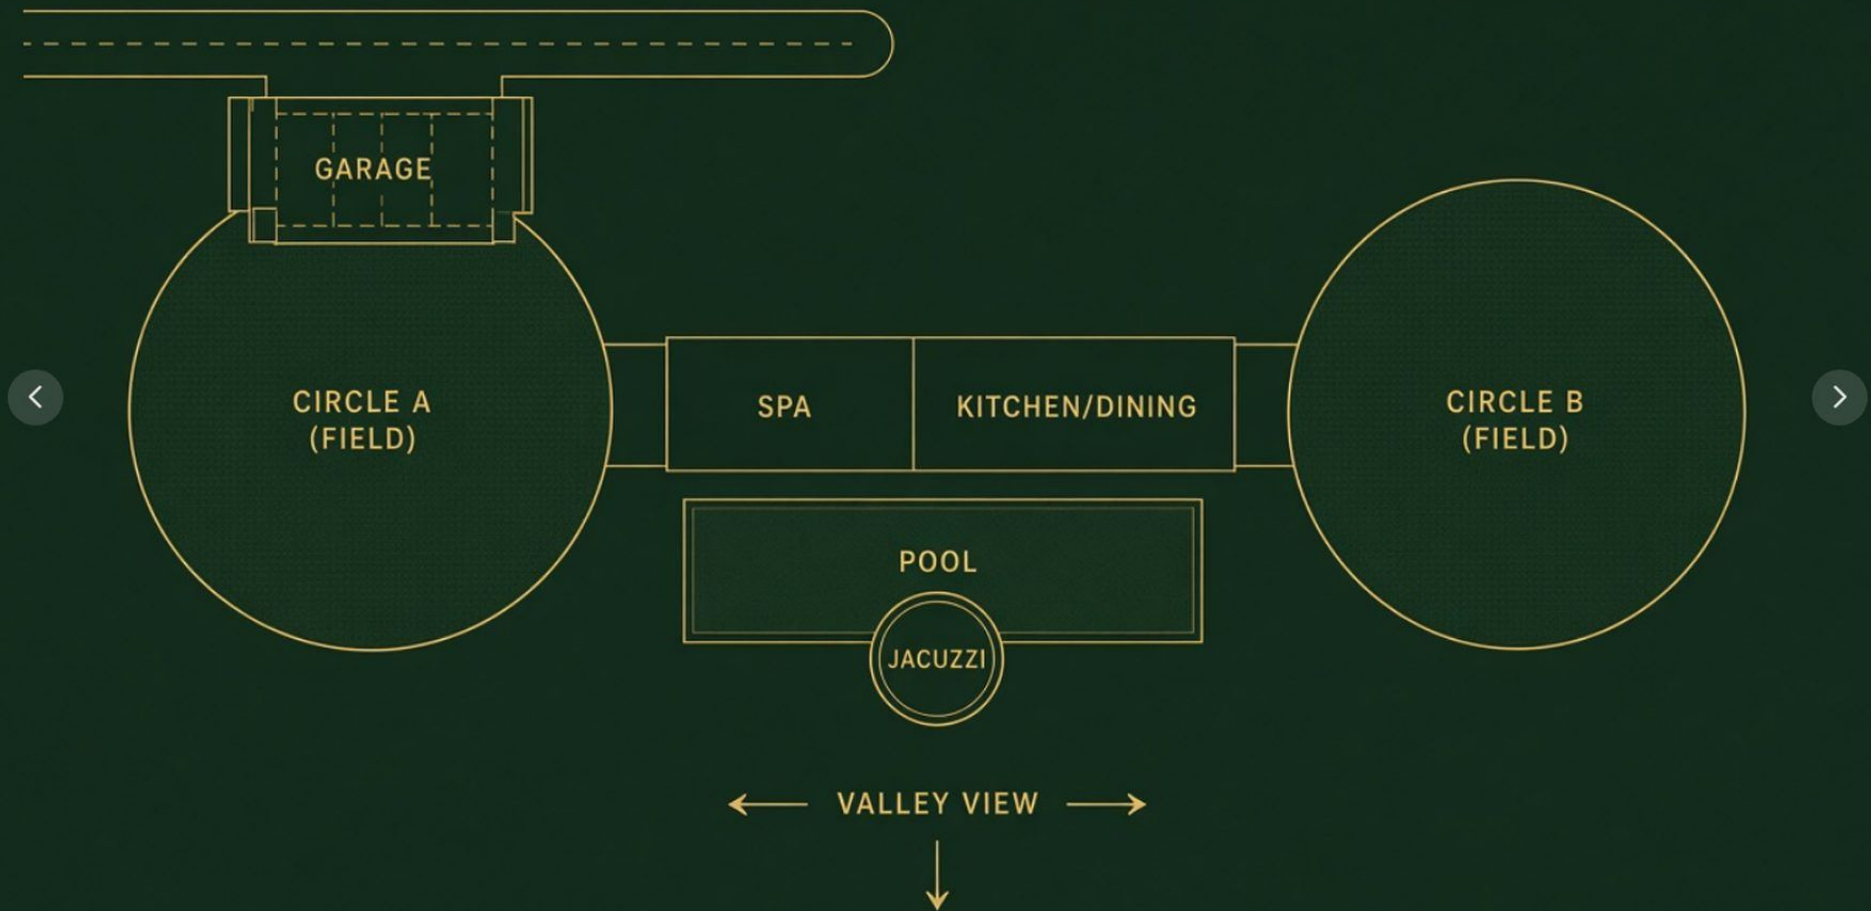

2-bedroom — the dumbbell

Same mid wing connecting two field circles · shared spa | kitchen & pool

2-bed and other configurations by private conversation

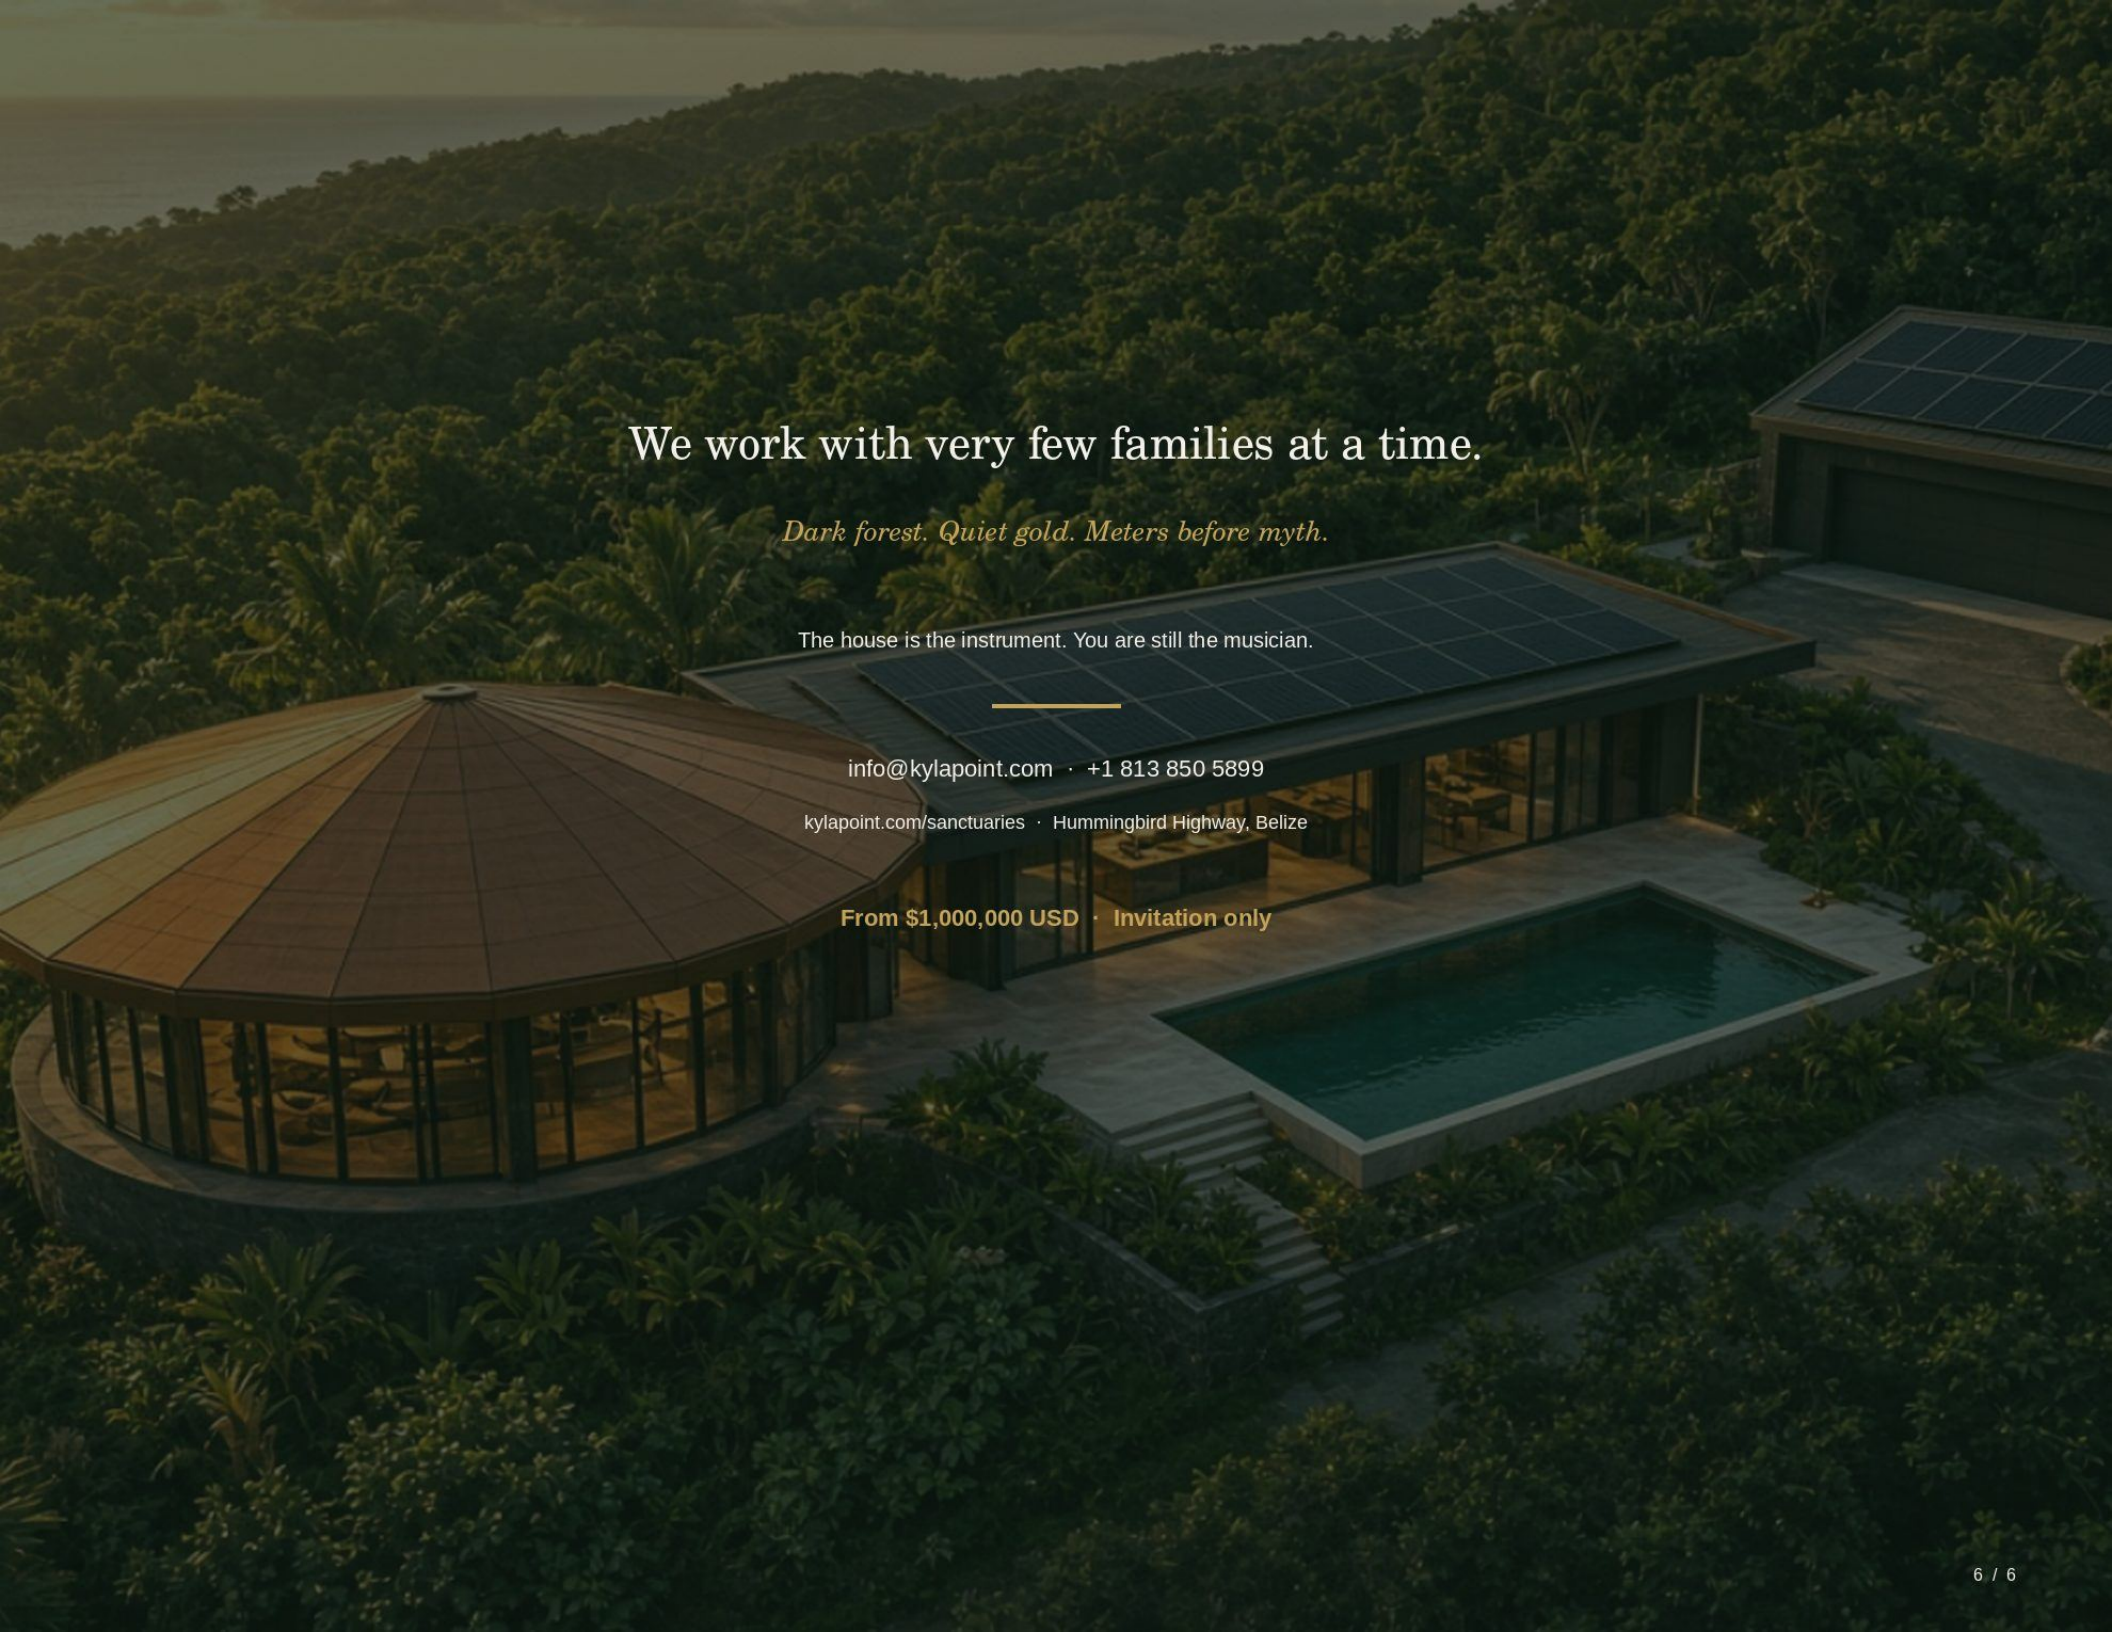

TOROIDAL FIELD SANCTUARY — 2 BED

Garage · wing · pool · circle(s)

Dirty power remote · Circles stay quiet · 100% off-grid capable

Power · water · waste · communications — no utility tether required

We work with very few families at a time.

Dark forest. Quiet gold. Meters before myth.

The house is the instrument. You are still the musician.
